

WOMAN'S VIEW OF PAYNE TARIFF BILL

Ida M. Tarbell Wants to Know
What it Has Done for Mothers
Bringing Up Families.

HAS MADE HOSIERY DEARER.

Does Not Complain of Increased Price
Of Hats and All the Fearful
And Wonderful Things.

New York, April 24.—Ida M. Tarbell, well known as the feminine Standard Oil specialist, gave a woman's view of the Payne tariff bill in an address at the dinner of the academy of political science last night.

"I am not talking of the woman who goes abroad and comes back with something contraband up her sleeve," began Miss Tarbell. "I am talking of the woman who never goes abroad and who practically never buys an imported article. She is the average American woman."

"What has the Payne bill done for the 10,000,000 or 20,000,000 mothers bringing up families on an income of a few hundred dollars a year? It has done some curious things. Take the matter of clothing. To begin at the head, it makes hats and all the fearful and wonderful things that go on their heads. I shall not complain of this. I rather think that we deserve to be penalized for wearing the things we do."

"It doesn't matter so much whether the head is covered or not, but it is of vital importance that we should be shod. We have hose, to begin with. Our stockings have been steadily decreasing in quality and increasing in price."

"Mr. Payne has compensated for what he has put on hosiery by what he has taken off from shoes or at least has taken off from the price of shoes. Mr. Payne has done nothing to clip the wings of the rubber shoe trust for the duty still remains."

"But how about one other article of footwear almost as important to women and children as the shoe itself—the rubber overshoe. In the last three or four years the price of the storm rubber has gone up from 50 cents. Mr. Payne has done nothing to clip the wings of the rubber shoe trust for the duty still remains."

PURE FOOD LAW.

Fines of More Than \$12,000 Paid in
Southern California for Violation.

Los Angeles, Cal., April 24.—Fines aggregating more than \$12,000 have been paid in southern California for prosecutions under the state pure food law since it became effective, according to an estimate made by State Senator McCarthy, who introduced the bill in the legislature. This amount represents about 500 prosecutions against both manufacturers and distributors of edibles and confections, which were mislabeled or adulterated.

PEACE CONGRESS.

Number of Diplomats Signify Intention
to Attend One at Chicago.

Chicago, April 24.—Announcement has been made regarding the diplomats who have signified their intention of coming to Chicago to attend the National Peace congress to be held from May 3 to 5. Among those who will be present are Ambassador Count Johann Heinrich von Bernstorff of Germany; Herman de Langererantz, envoy from Sweden; Dr. Wu Ting Fang, envoy from China; Alfred Mitchell Innes, ambassador of the British embassy, and Dr. Halvdan Koht, professor of modern history in the University of Norway, Christiania, ex-president of the National Peace organization of Norway.

Besides those named, representatives of the Japanese embassy, the Turkish legation and the French embassy will bring greetings to the congress from their governments.

Richard Bartholdt, representative in Congress from Missouri, will preside over the session at which the foreign representatives will speak.

MODJESKA'S WILL.

Her Estate Has Dwindled, Being Valued
at Only \$5,000.

Santa Ana, Cal., April 24.—The will of the late Madame Helena Modjeska, which has been filed for probate, was executed on August 25, 1906, and leaves \$4,000 to a sister in Poland and \$1,000 to each of the four children of Ludwig Opil of Los Angeles, a nephew. The balance is left to her husband, Count Bostia. The value of the estate evidently has dwindled since the will was made, as yesterday it was placed at \$5,000, consisting of three acres of land at Tustin, Orange county; silverware and a note for \$1,000.

LILLIAN RUSSELL HAS NARROW ESCAPE

Tacoma, Wash., April 24.—But for the presence of mind of Louis Thoms, a waiter, Lillian Russell, the actress, might have met death by poisoning in her private car at the Northern Pacific train sheds. Miss Russell had ordered a glass of Portland water and

Loss of Appetite in the Spring

Is very common, because at this time the blood is impure and cannot give the stomach and other digestive organs the stimulus necessary for the proper performance of their functions.

It is often a forerunner of prostrating sickness. This is why it is serious, and most serious to people that must keep up and doing or get behind-hand.

It is probable that Hood's Sarsaparilla has accomplished more for sufferers from loss of appetite than all other medicines.

Its remarkable record of cures of this trouble entitles it to be called the Great Appetizer.

It acts directly, as well as through the blood, on the stomach and other digestive organs, and makes its good effects felt at once.

Hood's Sarsaparilla gives strength

Hood's Sarsaparilla effects its wonderful cures, not simply because it contains sarsaparilla, but because it combines the utmost remedial values of more than 20 different ingredients, each greatly strengthened and enriched by this peculiar combination. These ingredients are the very remedies that successful physicians prescribe for the same diseases and ailments. There is no real substitute for Hood's Sarsaparilla. If urged to buy any preparation said to be "just as good," you may be sure it is inferior, costs less to make, and yields the dealer a larger profit.

Begin taking Hood's Sarsaparilla today. Get it in the usual liquid form or in chocolate tablets known as Sarsatabs. 100 Doses One Dollar.

was in the act of drinking when the waiter rushed into her room, dashed the glass from her hand and ran gasping back into the kitchen, where he fell to the floor in convulsions.

Upon investigation it was found that by mistake a solution of formaldehyde had been poured into a Portland water bottle by one of the servants on the car. After sending Miss Russell a drink from a bottle the waiter poured himself a glass and immediately on drinking it began suffering as she, though he retained sufficient presence of mind to recall that he must act quickly if he would save the actress. The attending physician said that Thoms would recover.

THE GOSSIPING WOMAN.

Deacon Sayles of Pittsfield, Mass., Would Send Her to Infernal Regions.

Pittsfield, Mass., April 24.—Deacon John P. Sayles, a wealthy and influential church member, has sprung into the limelight by an unqualified arraignment of "woman" in some of her unlabeled aspects. The occasion was the annual dinner of the South Congregational church and some of his critical observations were as follows:

"The gossiping woman surpasses all others for downright devilishness. She has not an equal. She is the worst foe of society, responsible for troubles innumerable. If I had my way I would banish her to the land of Siberia or relegate her to the infernal regions."

"From time immemorial men have tried to know woman but her points are so numerous as a buzz saw and just as endless. Playing with a woman is just as fatal as playing with a buzz saw."

"It is stated that woman was created for the delectation of men. I take issue with this statement. She was created to deceive him. She tasted the apple and offered it to man. He tasted and thought it good, but it proved everlasting bitter. This shows that she is smarter at tricks and displays her faulty nature. Adam was the first man deceived, but not the last one."

"The gossip gets husbands and wives into quarrel, brothers and sisters into

antagonisms. She disfigures the minister with his flock and the flock with the minister. Her tongue is like an adder's fork, distributing its deadly poison in the house, in the neighborhood, and in the precincts of the sanctuary."

DANISH STURGEON FOR AMERICAN WATERS

Washington, April 24.—In an effort to rehabilitate United States waters with the now practically exterminated Danish sturgeon, Horace G. Knowles, former American minister to Roumania, Servia and Bulgaria, now accredited to Nicaragua, has arranged to have shipped from Roumania, without any expense to this government, millions of young sturgeon and sturgeon. These fish are valuable because unlike the shad, they are not a season fish, but run all the year.

No other remedy on earth is so good for children as Hollister's Rocky Mountain Tea; makes them eat, sleep and grow. Bright eyes, rosy cheeks, 25 cents. Tea or Tablets—Globe Pitts Drug Co.

A PULSOME COMPLIMENT.

During Mr. Cleveland's tour of the south shortly after his marriage Mrs. Cleveland and he were driving one day through the streets of one of the larger towns escorted by two of its citizens. Some one threw a bunch of violets to Mrs. Cleveland, and Mr. Cleveland bent forward to catch it, remarking as he passed it, "I wonder why no one gives me flowers?"

One of the gentlemen present gallantly replied, "We think you have won the fairest flower in all the land."

"Ah, yes," returned the president; "but, you see, I can't keep her in water."

"It is not necessary since you keep her in such excellent spirits," was the reply.

Here Mrs. Cleveland interposed, saying, "I am afraid you are guilty of flattery," whereupon came the reply:

"No, madam. Flattery is fulsome compliment, and in this instance no compliment could be either too frank or too fulsome."

The charm of this response lies in the last and fourth from the last words, Mrs. Cleveland's maiden name being Frances Folsom.

BEST TREATMENT FOR COLDS.

"Most ordinary colds will yield to the simplest treatment," says the Chicago Tribune, "moderate heat, hot foot baths, a free perspiration and an avoidance of exposure to cold and wet after treatment." While this treatment is simple, it requires considerable trouble, and the one adopting it must remain in doors for a day or two, or a fresh cold is almost sure to be contracted, and in many instances, pneumonia follows. Is it not better to pin your faith to an old reliable preparation like Chamberlain's Cough Remedy, that is famous for its cures of colds and can always be depended upon? For sale by all druggists.

REACHES HAPPY HUNTING GROUNDS

Col. Roosevelt Sleeps in a Tent
Around Which Lions Prowled
All Night.

ALL KINDS OF GAME ABUNDANT

Camp is Elaborate—Caravan Will
Have Two Hundred and
Sixty Followers.

Kapiti Plains, British East Africa, April 23.—Theodore Roosevelt has reached the hunting grounds and tonight prepared to pass his first night in Africa under canvas. A big camp has been established near the railroad station. Last night lions were prowling about in the vicinity of the tents. The country is green, owing to the recent rains, and there is every prospect of good sport. The commoner varieties of game are plentiful, and the hunters will lose no time in getting started.

The special train bearing the Roosevelt party from Mombasa arrived this afternoon. Only the members of the party got off at Kapiti Plains. F. J. Jackson, the acting governor of the protectorate, and the other officials who came up from Mombasa, continued on to Nairobi.

The camp is most elaborate. The caravan will have 260 followers. There are 13 tents for the Europeans and their horses, and 60 tents for the porters. An American flag is flying over the tent occupied by Mr. Roosevelt. All the native porters were lined up on the platform when the Roosevelt stepped down from the train they shouted a salute in his honor.

Mr. Roosevelt was welcomed at the station by Sir Alfred Pease, who will be his host at Athi river. Mr. Roosevelt was on the cow catcher of the engine when the train pulled in, having occupied that position for 73 miles between Mombasa and Kapiti Plains. He said he was intensely interested in the country, and expressed his gratitude and delight at the hospitality shown him by the acting governor and by Mrs. Jackson.

The caravan includes four head men, nine gun bearers, 12 armed guards, 20 porters and nine horses. Mr. Selous is going on a lion hunt with Mr. McMillan. He is not attached to the Roosevelt party, the only members of which are licensed to shoot lions being Mr. Roosevelt and Kermit.

SENATOR BENJAMIN F. SHIVELY.

Senator Shively, the new United States senator from Indiana, defeated Mr. Kern, Bryan's running mate, for that office. He was born in St. Joseph county, Ind., March 29, 1857. He is a graduate of the University of Michigan, and has already served four terms in the lower house of Congress. He is the first Democratic senator from Indiana in 16 years.

A QUEER CHINESE NOTION.

One of the beliefs which the Chinese are slowly unlearning is that foreigners use the eyes and hearts of Chinamen in compounding rare and costly drugs which are valuable aids in magic. Medicine and magic have for ages gone hand in hand in China, just as they once did in Europe. Ignorant Chinamen therefore readily believe such tales. The use of eyes of Chinese by foreigners in metallurgy is described in a work called "A Deathblow to Corrupt Practices" published in 1870. According to this, when white Christians had charge of a funeral they drove all the relatives and friends from the house. Both eyeballs were then removed from the corpse, the orifices being filled with plaster. This was called "sealing the eyes for the western journey." By compounding these eyes with a hundred pounds of Chinese lead, this veracious chronicler continues, eight pounds of silver could be extracted from it. The sight organs of any other people were useless for this purpose.

Have only one doctor—just one
No sense in running from one doctor to another! Select the best one, then stand by him. No sense in trying this thing, that thing, for your cough. Carefully, deliberately select the best cough medicine, then take it. Stick to it. Ask your doctor about Ayer's Cherry Pectoral for throat and lung troubles.
